THAT WILY AMTORG  
BONES OF LONG AGO  
SIAM'S WISE KING  
NEW YORK'S PUZZLE

By Arthur Brisbane

(Copyright 1930 By King Features  
Syndicate, Inc.)

IT WAS SAID THAT Russia was selling wheat, Russia was selling wheat and wheat prices dropped.

That, for mysterious reason, known only to the Bolshevik mind and the board of trade intellect, Russia began buying, and up went the price of wheat, driving poor bears to despair.

Who in the world taught Bolsheviks to "outsmart" our ingenious long and short traders?

THAT RUSSIA SHOULD "out-smart" the farm board, made up of men, unfamiliar with speculation, is not surprising. But how does "Amtorg" manipulate our wisest ones? Our high finance said Russia couldn't possibly succeed in business. Could high finance, have been mistaken?

In Greerich Village, 100 years ago, respectable citizens were buried in a quiet graveyard. As they bought their graves, each probably thought "here I shall rest in peace until Gabriel comes to get me."

But New York city needs the land and steam shovels are now digging up the graveyard. Police "guard the bones," and they will be buried to finish the "dust to dust" process elsewhere.

FORTUNATELY THOSE DEAD of 100 years ago are really not injured. And anyhow, in the course of time, in a few million years at most, this earth itself will go back to cosmic dust.

The finest grave is only temporary. We must look elsewhere for comfort.

THE KING OF SIAM, who suffers from a dangerous infection of the eye, would have known just what to do, before civilized science came.

He would have gone to the temple. Priests of the strange Siamese religion would have gone through many motions, calling upon powers invisible, of light and darkness.

Then the king would have died of his infection probably.

Things have changed, this modern king of Siam says to his priests "much obliged, but this is real illness, and I can't afford to depend on imaginary cures."

He is coming to Johns-Hopkins hospital in Baltimore.

NEW YORK'S GOVERNORSHIP fight will be an interesting wet-dry performance.

The New York Democracy, like the ocean on which the walrus and the carpenter gazes, is "as wet as wet can be." It demands repeal of the 18th amendment.

And the Republican party, until now the Gibraltar of prohibition, will also nominate at wet. Mr. Tuttle, who says nothing short of repeal will suit him.

Sincere prohibitionists will nominate a dry candidate, determined that citizens shall

AUTO MECHANICS  
INTRODUCED FOR  
STUDY IN SALEMStudents At High School  
Here Given Advantages  
Of New CoursePURCHASE OF NEW  
EQUIPMENT IS PLANPlans Approved By Board  
At Special Session  
Held Monday

Introduction of a course of study on auto mechanics has been put in effect by Salem school officials at the high school this year, it was announced at a special meeting of the board of education Thursday night.

The new course is being taught by E. E. Engelhart, manual arts teacher, and has attracted more than 20 students, all of them boys.

Study of the course has been mostly by theory during the first few weeks of school, J. S. Allen, superintendent, reported to the board, in recommending the purchase of tools and equipment for advanced study. The board approved Allen's recommendation and soon a thorough course will be available to students.

The course was introduced following a survey conducted last year by W. J. Springer, high school principal, to ascertain the amount of interest in such an innovation among high school youths. It was revealed that boys approved of the plan and displayed much interest and this year the course was introduced.

It is believed Salem High is the only Columbiana county school with an auto mechanics course included in its curriculum.

The board of education approved purchase of basketballs and playground equipment for grade schools at the meeting.

STUDENTS PLAN  
MAGAZINE HEREOpening Issue Of Quaker  
Will Be Off Press  
On October 3

Arrangements were completed for the printing of The Quaker, Salem High school bi-weekly magazine, by the Salem Label company today.

The magazine will be published by a staff of high school students under faculty supervision of Miss Eleanor Workman and R. W. Hildendorf. It will be printed twice a month during the entire 1930-31 school term.

The first issue will be off the press on Friday, October 3, when approximately 400 extra copies will be printed for circulation among junior high school students. The cost of the magazine, for the year's subscription, is included in the year's budget plan made available annually to high school pupils.

Students are given practical experience in journalism through publication of the magazine. Miss Dorothy Harroff is editor while Howard Heston is business manager.

An annual edition of The Quaker, summarizing all activities for the current school year, will be published next June by the Label company.

Marionettes Will  
Appear Here Oct. 6

Jean Gros' French marionettes will be featured in a program scheduled at the high school auditorium here, afternoon and evening of Monday, October 6.

A matinee will be given at 2:30 for school children and adults with an evening performance scheduled at 8 p. m.

Featured in the entertainment will be a repertoire, "An Adventure on Pelican Isle," "The Yellow Knight of Oz," and "Uncle Wiggily at the Circus."

WESTERN STATEIowa Hard Hit By Wind;  
Kansas and Missouri  
Also Affected

(By Associated Press)

KANSAS CITY, Sept. 26.—Snow in the Black Hills, destructive winds and lightning in the corn belt and a storm of tornado proportions ripping across the Mississippi valley—this was the weather picture the middle west looked back upon today.

One person was killed and many injured in the Iowa, Missouri, Kansas and Oklahoma storms, which swept with varying intensity from as far west as Council Bluffs, Ia., east to the Mississippi. Miles of wires were blown down. Farm homes were destroyed. Crops suffered. Hail storms and heavy rains accompanied the wind.

A woman identified only as Mrs. Webster was killed at Metz, Mo., near the western border, when her home was demolished by the storm. Another was reported severely injured. At Richards, nearly 15 freight cars were flattened. A stretch of railroad track torn away and the Missouri Pacific station razed by the fury of the gale.

All communication with the wind swept area was interrupted and railroad service was suspended. Miles of telephone and power lines are down.

A barn was torn apart by the wind at Summitville, Ia., and Charles Phillips, seeking shelter there, was severely injured by flying timbers. Miss Margaret Hise, a University of Iowa student, was caught beneath a wind-tumbled tree at Iowa City. Injuries that may prove fatal befell O. L. Lawrence, who was in a barn struck by lightning at Council Bluffs, Ia.

There was property and crop damage near Albia, Ia., the neighborhoods of Stuart, Atlantic, Casey and Guthrie Center, Ia., were hard hit.

Salem School Board  
Inspects New Plans

Revised plans and specifications for the proposed new senior high school building were inspected by members of the board of education at a meeting held Monday night.

The revised plans were submitted by City Engineer F. S. Barckhoff and Charles F. Owsley, Youngstown architect.

Plans were also submitted by M. R. Miller of Girard, J. Kerr Giffin of Canton and the Charles J. and Chris Riegel Architectural company of Pittsburgh.

LUTHERAN CHURCH IN  
WASHINGTONVILLE TO  
OBSERVE 120TH YEARProminent Men Will Address Gathering Sunday As  
Anniversary Is Celebrated; Special  
Music Has Been Arranged

WASHINGTONVILLE, Sept. 26.—Mayor Joseph G. Thorpe will give the welcome at the afternoon session when Trinity Evangelical Lutheran church celebrates its 120th anniversary Sunday at the church.

Rev. J. S. Herold, D. D., missionary superintendent of the Synod of Ohio, will preach at the service for the morning worship at 10:30. Sunday school will be held at 9:30 a. m. with L. J. Davis, superintendent. Mrs. Ray Scuffer and the choir will furnish special music.

Dinner will be served at the church by the Ladies Aid.

Treasurer to Speak

John L. Zimmerman, L. L. D., of Springfield, treasurer of Wittenberg college, will give an address at the afternoon session. It will be preceded by special music by Mrs. Raymond Smith, and reading of the history of the congregation by Ivan Davis.

After special music by Don Davis, Rev. S. E. Greenawald, D. D., president of the board of directors of Oesterlin Orphans home, and professor emeritus of Bible, Wittenberg college, will give an address. Betty Booker will contribute a reading. Former members and friends of the church will be privileged to give remarks.

Rev. H. C. Brillhart, D. D., of Leetonia, pastor of St. Paul's Lutheran church there, will give the evening sermon. This service will begin at 7:30.

Special music will be furnished by a quartet composed of Mrs. Raymond Smith, Charles and Gilbert DeJame, Delmont Weikart. The choir will sing on anthem.

Organized in 1810

This church was organized in 1810 by William Roller, William Bates, Peter Zimmerman, Joseph Zimmerman, John Greenawald, Henry Estep and others.

The first structure was a log building which stood near the center of the old cemetery. The land for the cemetery and church were donated by Michael and Balser Roller. Later James Roller, son of Michael Roller, donated the lot and parsonage.

The first Sunday school was or-

ganized by Lutherans and Presbyterians about 1812 and they met together in the old log church. Dr. D. H. Bertolletti was the first superintendent. His assistant was Henry Estep.

Rev. Johannes Stauch was pastor from 1810 to 1832. With his colleague Rev. Monasmith, they traveled around the vicinity on horseback to preach the gospel.

For College Inn, operated as a country hotel since 1898, served this community as an academy for nearly a century. It was known for years as Harlem Springs academy and was founded in 1862, one year after the outbreak of the Civil war.

Every effort was made to save the old structure, long Harlem Springs chief bid to fame. Bucket brigades of villagers, handicapped by a shortage of water, fought the blaze until driven to safety. When the fire got out of control the villagers centered their efforts on saving nearby structures. Carroton and Amsterdam fire departments did not respond to a call for assistance because water pressure is not available at Harlem Springs.

Building Burns Quickly

Less than two hours after the fire was discovered five blackened chimney stacks reared their heads above the smouldering ruins to mark the spot where once stood one of Ohio's pioneer educational institutions.

Within recent years the building and grounds had been the property

Earth In Canada;  
Snowfall Heavy

WINNIPEG, Man., Sept. 26.—Summer passed suddenly from the prairie provinces of Canada which were covered today by a blanket of ice and snow, the first of the season.

Lasting more than 24 hours, the storm swept across the provinces, drifted snow in hollows, ripped down telegraph poles, disrupted traffic and beat down an airplane which carried three passengers to their deaths near Southport, Alta.

Pilot Pat Holden, I. C. McDonald and J. C. Gibson, all of Calgary, were victims of the crash, which was attributed directly to the storm. The plane exploded and burned after crashing.

The temperature dropped to 12 degrees above zero at Prince George, B. C.

(By International News Service)

HOLLYWOOD CAL. Sept. 26.—As the result of her gambling escapade at Calineva Clara Bow the flaming haired film actress, today was reported cogitating over a bit of "friendly advice" given her by officials of the Paramount-Public company which holds her contract.

Officers of the motion picture company admitted today that they had talked with Miss Bow since news of her \$13,900 difficulty with the Calineva resort became public.

After "bucking the tiger" at Calineva, it is alleged the actress stopped payments on checks amounting to \$13,900. She explained that she thought she was playing with 50-cent pieces, whereas the owners of the resort claim these pieces represented \$100 checks.

Although declining to be specific about the sort of advice given to Miss Bow, Henry Herzburn, attorney for the motion picture company, asserted it was about the Calineva episode. He emphatically denied, however, that Miss Bow's contract would be affected by the affair.

Meanwhile, Miss Bow had been forbidden to talk of the affair.

Will Rogers, however, had a few witty remarks to make about the matter in general. He was at

For Report

(By Associated Press)

COLUMBUS, Sept. 26.—The next legislature will be asked to authorize the establishment of two new prisons in Ohio if Governor Cooper follows recommendations in the preliminary report of his welfare advisory commission.

The report, completed yesterday, said the present rate of increase in prison population made increased facilities imperative. From 1930 to 1929, the commission said, the number of male prisoners increased from 3,619 to 8,222. Based on these figures, it added, the population will be 16,672 by 1940.

Under the commission's plans, the Grafton state farm would be developed into a new institution to house 1200 prisoners and the other new prison would be erected at a site yet to be selected.

The commission said that Ohio penitentiary has been practically rebuilt so far as proper housing, sanitation and fire protection are concerned. This rebuilding, the commission added, started before the first last April in which 320 convicts perished. To replace the penitentiary as it now stands, the report said, would cost from \$8,000,000 to \$10,000,000.

The commission recommended that the legislature provide funds for continuance of the bureau of classification of prisoners; suggested that the London prison farm be maintained as a reformatory with a population not to exceed 1,300; urged prompt elimination of fire hazards at the boys' industrial school at Lancaster and the girls' industrial school at Delaware, and declared that state officials must coordinate their efforts to keep the penal population down through segregation and efficient parole systems.

MERION CRICKET CLUB, Ardmore, Pa., Sept. 26.—After withstanding a great comeback by his rival, Bobby Jones was four up over Jess Sweetser of New York, today, after 18-holes of the 36-hole semi-final match in the national amateur golf championship.

Jones finished strongly to regain commanding lead after Charley Seaver, the 19-year-old Los Angeles youth, in the other semi-final match swept into a lead of five up over Eugene V. Homans of Englewood, N. J.

Jones won three of the last four holes after the big blond New Yorker had spurted midway through the round and almost wiped out the Georgian's early advantage.

REPUBLICANS OF  
NEW YORK STATE  
INCLUDE REPEALProhibition Forms Main  
Plank In Platform

BULLETIN

ALBANY, N. Y., Sept. 26.—By a vote of 73 to 258 the New York State Republican convention today adopted a plank calling for the repeal of the 18th amendment.

(By Associated Press)

ALBANY, N. Y., Sept. 26.—A platform in which the principal plank called for repeal of the 18th amendment was put forward today for adoption by the New York State Republican convention.

The repeal declaration reversing a dry policy adhered to by the party for many years was the certain center of contention on the floor of the convention, but the wets were in the saddle and confident of their ability to secure its adoption on the first ballot.

The plank coincided with the anti-prohibition attitude of Charles H. Tuttle of New York, federal district attorney, and its approval by the platform committee added to the certainty that Mr. Tuttle would be named by the convention today as the party nominee for governor.

The repeal declaration came before the platform committee adopted a resolution by Meier Steinbrink of Brooklyn, embodying the views of Mr. Tuttle. It calls for repeal with the understanding that the repealer be accompanied by adoption of a substitute amendment, outlawing the saloon, forbidding private traffic in intoxicating beverages for private profit and guaranteeing federal assistance to prohibition states.

The committee placed the plank in the platform by a vote of thirty nine to twelve.

The 991 delegates to the convention were summoned to meet at 10 o'clock this morning, but several addresses preceded the adoption of the platform and nomination of a state ticket.

Prohibition Topic

An impromptu talk on the "Eighteenth Amendment" by Rev. B. E. Rutsky, pastor of the Emmanuel Lutheran church featured the Kiwanis club meeting held at the Memorial building Thursday noon.

The meeting was in charge of J. R. Stratton and W. D. King. A discussion of his recent trip to Europe was given by M. B. Krauss who conducted a pilgrimage of native Transylvanians to their native country.

Lee S. Lanpher, former member of the club and now a resident of Jacksonville, Fla., was a guest and gave a short talk on hospital work in which he is now involved.

YOUNGSTOWN, Sept. 26.—Charges of manslaughter probably will be filed against Samuel H. Kurtz, 32, of 796 East Fourth street at a result of an automobile accident which occurred near Coitsville Thursday afternoon in which one woman was killed and two others were injured, police officials here stated today.

Kurtz was arrested following an investigation conducted into the accident by three Youngstown police detectives and is reported to have admitted responsibility for the fatal crash. Harvey Mitchell, 32, of 820 Tod avenue, Youngstown, and Warner Robinson, 22, of Meadville, Pa., Kurtz's companions when the mishap occurred, are being held on charges of suspicion.

Miss Lois Miller, 38, of Philadelphia, Pa., sustained injuries which caused her death shortly afterwards while Miss Francis Miller, 40, of Washington, sustained lacerations about the face. Mrs. C. J. Lund of Akron sustained a fractured leg.

The automobile in which the three women were riding was bound from Akron to New Castle, Pa., when the crash occurred on the Youngstown-New Castle road, near Coitsville.

SEARCH STARTED

Of Flight From Ohio;  
Desert Pilot

(By Associated Press)

CLEVELAND, Sept. 26.—Planes were ordered to fly from two cities today to hunt for Pilot Willard Parker and William McNulty, Columbus, who have been unreported since they left here early Wednesday on a flight for an indefinite destination.

W. S. Allen, manager of the Curtiss-Wright flying service of Columbus, owners of the missing plane, announced expeditions would start from Cleveland and Pittsburgh today. Allen himself and Pilot John V. Corradi were ready to fly to Sunbury, Pa., following the route Parker would have taken had he gone to Millersburg, Pa., as possible destination mentioned by McNulty.

In addition, Allen asked Pennsylvania state police and the New York constabulary to watch for the missing ship.

Parker, a world war pilot, and McNulty, who was flown here from Columbus Tuesday by Corradi had only five hours' gasoline supply when they started. A survey of possible landing fields in New York, Pennsylvania and Canada failed to reveal any trace of them, although Mrs. McNulty said her husband habitually flew to Canada. The possibility they may have fallen in Lake Erie or landed in some remote place was considered.

If they are found safe, McNulty and Parker will have to explain why they deserted Corradi, the only authorized pilot of the plane, according to Allen.

## EXCUSE FOR A HAIRCUT

There are men whose polls always are neatly trimmed and perfumed, and men whose polls never are neatly trimmed and perfumed, and other men, like most of us, who get a haircut when they think it can't be put off any longer. There are all these and—for a few days at least—David Lloyd George.

Vying for attention with whatever political issue Mr. Lloyd George may be mixed up in at the moment is a haircut that he ordered a few days ago. When he appeared before an English political audience despoiled of the long white locks which have delighted cartoonists for years past, it was his appearance, not his message, that intrigued it.

As the awful truth that he actually had let a barber trim him up in approved modern style filtered into his listeners' consciousness the foundations of British solidarity must have trembled.

At least that is the way most commentators have chosen to regard the matter. But why such a rum-pus over a haircut, even a Lloyd George haircut?

Because a man has chosen to hide the back of his neck under a mane for 30 years must he feel obliged to do so the rest of his life? It is utterly unreasonable and equally untactful for commentators, especially male commentators, to make such a fuss about it.

Mr. Lloyd George, even as other men, may be sensitive about his tonsorial affections; if he wants to revise them, he should not be hampered by ridicule, even comment.

And give a thought to the example established by the what-has-been-must-always-be attitude taken by members of the Lloyd George anti-haircut faction.

Were they not glad when they shed their curls in the post-babyhood age? Were they not happy when they were allowed to cultivate their first pompadours? Certainly, they were and they would have resented any comment indicating that they had done something for the worse.

Now that a rationalizing word has been put in for Mr. Lloyd George's right to shear and shave and let flocks fall without amaze, we also to barber's fast must trot to have our neck clipped—jeers or not.

## THOUGHTS ON CENSORSHIP

The Ohio board of film censorship has forced itself into unfavorable prominence by refusing to allow a motion picture depicting events in a large penitentiary to be exhibited in the state.

It is understood that there is much implied criticism of prison management in the picture, which has no direct connection with prison management in Ohio or any other state.

Without desiring in any way to criticize the board, which functions unobtrusively, therefore pleasantly, most of the time; without extolling a picture which they have barred for certain reasons of their own, it is permissible to recognize one doubtful aspect of the board's action.

It has barred a picture which, according to reviewers in other states where it has been shown, would remind spectators in this state that successive legislatures were so negligent in making penitentiary appropriations that the recent Ohio prison fire killed 320 men.

Any such action, of course, can be interpreted as protective. The alacrity of the censorship in announcing that in the future all moving pictures of gangsters and racketeering will be barred helps not one bit. If such pictures are harmful, they were harmful before the necessity arose of barring a prison picture.

Governor Cooper and his prison commission have stated they are improving conditions in the Ohio pen-

itentiary. Presumably they have nothing to fear, therefore.

The censorship board explains its action on the grounds that the picture would be "harmful to the boys and girls of Ohio."

That presumes, of course, that censorship boards in other states where the picture has been exhibited were shirking their duty. The question seems destined to remain a moot one, therefore.

For the convenience of persons unacquainted with the composition of the division of film censorship in Ohio, the following information from the official roster 1929-1930 is reprinted:

## What Others Say

### THE ST. LAWRENCE ROUTE

Recently the Great Lakes Harbor association voted to request the Hoover administration to confer at once with the Canadian government regarding the deep-channel waterway from the Great Lakes to the Atlantic by way of the St. Lawrence. The association's decision is explicit in the belief that the feasibility of the project can not be questioned any longer.

President Hoover made excellent political capital out of the St. Lawrence seaway project as a presidential nominee, and after his election undertook conversations with Ottawa regarding it. But such projects move slowly, the more so when two nations are involved. In recent months, Canada has shown a growing disinclination to share a joint plan, fearing that the United States will dominate the project, while Canada continues to pay her share of the bill.

If the building of a deep channel through this route is as feasible as the Great Lakes association believes, then there is no excuse for delay in pressing for an international convention to make its construction possible. If it is not feasible, then the administration should demonstrate just why it is not, for the whole project represents a campaign pledge that should be accounted for to the electorate.—Cincinnati Enquirer

## The Stars Say—

For Saturday, September 27  
A day of important enterprise and movement is indicated by the predominant lunar activities. There is prospect of a sudden change or journey, which may prove of far-reaching influence. If this be in connection with new undertakings every precaution and discretion should be made against duplicity and fraud as there is a definite menace of financial loss and disrupted and undermined plans. All manner of speculation loans and hazards with funds should be avoided. Employment holds some offsetting security.

Those whose birthday it is may count on an eventful year with the promise of a sudden change or travel, which may completely affect the life and environment. New projects are under a baneful ray being imperiled by treachery or fraud. But employment is well fortified and with general precaution and discretion all may be satisfactory in the end. A child born on this day may be ingenious original inventive, but fond of change and travel. It may succeed in employment but with a possible tendency to extravagance and speculation and also being subject to fraud and subtle attack it may need to be trained in conservation and discretion.

NEW YORK, Sept. 26—Thoughts while strolling. A policeman holding a white-faced pick-pocket, poor devil for the wagon. Travel posters of Singapore, Bangkok and Batavia—and washed-out city dreamers idling before them, entranced. Bernadine MacLadden. Turn your head quickly and spell that name without looking again.

Cosmetic sign. "Face cream that satirizes!" Tra-la-loo! Pewter ware in style again. John McE. Bowman grows grayer and looks younger. A 7th avenue cafe that changed names 12 times in a year. The bigger the sign the punker the movie. Wonder what Turkish bath rubbers do on days off?

The Chrysler tower not filling so rapidly. But neither did the Heckscher building—and look at it now. Bruce Barton somewhat resembles Gene Tunney. Ziti's Rolls-Royce. Feather-footed Bill Robinson seems the most popular negro performer on Broadway. Deservedly.

Neyna McMen, a Quincey, Ill., girl, who made good in the city. Her name was selected by numerous—the real one being Moran. Always a cinema celebrity or so in the lobby of the Warwick. And those panting red-tongued puppies in that stuffy 6th avenue window. What happened to the ginger snap business?

An airplane misses fire, dips, but shoots up again. And gulpy-gulp does three sticks of chewing gum. If you think a Scottish terrier, can not fight—how are the folks? What that policeman said to a chauffeur! Wonder where William MacHarg, the old recluse, keeps himself? Ursula Parret, the "Ex" authoress.

That new St. Moritz hotel. Ultracontinental and what not! British riding academy instructors. And shoe repairers in braided uniforms. Men's autumnal hats in lizzie shades. They never thought out in Youngstown. O. Harry Warner would control a big slice of Broadway some day.

New York's creeping sickness—the growing traffic congestion. A postman suggesting Charles Evan Hughes—open face with Alrdade trimmings. Wouldn't it be funny to inquire in a chain drug store if they sold barbed wire. And if they did yank out a pistol and shoot yourself. All right, think up one funnier.

A gentleman disappointed over a favorite editorial writer being supplanted by another writes me thus: "A great fire has gone glimmering and a nonentity with a tallow dip is trailing a mental tropical sun." A bird expressing himself so superbly will get a broken arm if he ever reaches for my typewriter.

On a Broadway corner last evening a pitch-man after a breezy talk reached into his grip and offered for a half dollar: A gold pencil, a fountain pen, a cigar lighter, a cigar cutter and 25 cents in change. I hesitated only a second and walked right on. Whence comes such will power, hey, hey!

In gregarious moments I like to drift over to Broadway where shops are still shops and not satiny salons. When I enter salons I have a feeling I am about to step on a cat or that something will go off with a mighty bang right under me.

In one of the salons recently a clerk sporting a lapel gardenia told me a shaving lotion I was about to purchase would "softenify." If somehow made me madder than fury and Mike Hegg wanted to slap him down. Then there is the baking salons you'll die at this with colored bread for the kiddies. The wheat is tinted with harmless vegetable dyes and the bread comes out of the oven orange, strawberry, green, pink and lemon yellow.

### Sound Sleep—Quiet

We derive all knowledge from the five senses, seeing, hearing, smelling, tasting and feeling. Each of these special functions depends upon a delicate and finely adjusted mechanism. Overrush will damage or destroy it. Regular rest and sleep are essential to its normal activity.

Sleep is a great mystery. We know that it is a degree of unconsciousness, but no one has ever solved the problem of exactly what it is. Brain and nerves, when tired and worn, are recreated in sleep.

Prolonged sleeplessness in the human being damages the brain and nervous system most, but other serious bodily changes occur also. The body temperature falls, there are degenerative changes in the fatty tissues and other serious effects are felt.

Numerous experiments on animals have established the fact that loss of sleep is far more dangerous to life than starvation. A sleepless animal at the end of three or four days is as miserable as a starved one at the end of ten or fifteen days.

It is very important to know how to sleep. To have satisfying and refreshing sleep one must have the right conditions. Quietness and freedom from light are absolutely essential to sound sleep. Even a ray of light may send its disturbing message to the brain. The brain is not at rest if any one of the special organs is working.

Probably you have often been awakened by the sharp blast of an automobile horn, or a disagreeable smell floating in through an open window or by a sudden bright light shining. If any of these annoying things were kept up long enough positive illness might follow.

Even though you sleep through any one of these disturbances, the nerves carry the message to the brain. The quality of sleep is changed. It is much less restful and restorative than if the sleeper has none of these disquieting factors.

A nervous person or one who is ill or recovering from an illness should have sleeping quarters where stillness and darkness reign. Even a night lamp is bad for profound and restful sleep. I know of a friend living in the city where there is much light, who always has a black handkerchief at hand to place over the eyes on going to sleep. This is a very good idea for it makes for sound rest.

Very often sleeplessness comes from indigestion of some sort. Many persons cannot eat anything just before sleeping. Banish worry if you

would sleep well. One's mental state has much to do with this business of sleeping and why worry anyway? The vigor, efficiency, and length of days are promoted by giving the special senses nothing to do during the hours of sleep. That is why care must be taken to provide conditions favorable to sleep.

Fatigue is Nature's warning. We should heed that warning by having the right amount and proper degree of sleep.

# HUSBAND, WIFE SHOT TO DEATH

Police Think Suicide Pact Was Basis Of Double Tragedy

MEDINA, Sept. 26.—A suicide pact founded on financial difficulties was the explanation of Medina county authorities today for the deaths of Mr. and Mrs. Herlo Immel, whose bodies were found in a wooded ravine 19 miles from their home at Seville yesterday.

Immel, 49, a poultry raiser, and his wife, Lucell, 36, left their home yesterday morning after their three children Keith, 13, Dale 11, and Irish, 7, started for school. They drove 19 miles before stopping in the woods.

Word that the couple was missing was carried to Sheriff Lyman Buntington. Officers went to the Immel home, discovered that a gun had been taken away and found a note asking that relatives care for the children, and educate them with insurance money.

The bodies were found by Judson A. Sheok, who was hunting mushrooms.

# AGED TURK NEAR DEATH, INJURED

Auto Strikes Man Who Claims 156 Years Of Existence

(By United Press)

NEW YORK, Sept. 26.—Zaro Agha, the wizened Turk who lays claim to 156 years of life, was near death today from injuries received when struck by a hit-run driver.

Agha was crossing the street in front of his hotel and stopped on an "island" in the center. A large limousine, driven by a liveried chauffeur, sideswiped the aged man and caused him to fall, his head hitting the running board.

After Agha had been taken to his hotel by his great-great grandson and manager, who were with him at the time, it was found he was in a critical condition from internal injuries and possible fractures of the skull and legs.

Since Agha came to this country last July as "the world's oldest human," he has been examined by many physicians, some of whom have said he could easily be 120 years old. He claims to have been born in 1774, shortly before the revolution, and to have fought against Napoleon.

Americans Reply To Red Batteries Stationed On River Bank

SHANGHAI, Sept. 26.—Two American gunboats fought their way through barrages of artillery fire laid down by Chinese Reds at different places along the middle Yangtze river last night and today, silencing the heavy attacks and escaping undamaged.

The U. S. Gunboat fought an artillery duel with a battery of Red field guns hidden along the shore 100 miles above Hankow.

The Gunboat opened up with her three-inch guns amid a shower of Red cannon fire and then brought machine guns into play. The Red attack stopped and the Gunboat proceeded unscathed.

Proceeding down the river the U. S. S. Aahua ran into a battery of Red field guns a few miles above Kinkiang. The marauders raked the river with heavy fire. After silencing the shore battery with her machine guns the Oahu raced to safety.

William Filson, accompanied by Mrs. Berry; cornet and saxophone duet, Rachel Copeland and Billy Holloway, accompanied by Miss Wanda Cope.

Lunch was served and the tables were made attractive with flowers.

### MULLINS BOOSTER CLUB

Mullins Booster club members had a 6:30 o'clock dinner Thursday evening at the Katherine Rose dining room.

Mrs. Russel Smith, before her recent marriage, Miss Wilma DeJane, was showered with gifts for her new home.

Later the guests went to the home of Misses Rose, Margaret and Ann McLaughlin, West Second street, and were interested in cards and music.

The club planned to hold a Halloween party on Thursday evening, October 30.

### PYTHIAN SISTERS

A membership contest is being conducted by Friendship temple No. 100, Pythian Sisters, with Mrs. Blanche Scullion and Mrs. William Probert captains. The losers will banquet the winners.

At a meeting Thursday evening plans were made to organize a past chiefs association here in the near future.

At the next meeting the delegate to grand lodge will give her report and lunch will be served.

### MARRIAGE LICENSES

A marriage license has been issued to Homer Pultz of 1223 Main street, Wellsville, a machinist, and Miss Ann McElroy, also of Wellsville, a nurse and daughter of Mr. and Mrs. Calvin McElroy. They were married at the parsonage of the Lisbon M. E. church by Rev. C. N. Church.

John S. Buta of Salem, a moulder and Margaret Jiga, also of Salem, formerly residing at Wierton, W. Va., have obtained a marriage license. They are to be married at Salem by Rev. Train Damian.

### Today's Pattern

2033

Here is a serviceable frock to wear when working about the home. The collar and vestee, both pointed in attractive manner, top a long slender panel that forms two pleats affording ample freedom in the skirt. Long or short sleeves may be used. Tiny pearl buttons trim the vestee.

Pattern 2033 is neat and crisp made of wash silk, percale, gingham, pique, dimity or rayon. The trimming may be white, or the outstanding color of the design. Pique is nice for this, and launders beautifully.

May be obtained only in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, and 44. Size 16 requires 3 1/2 yards of 39 inch material.

### Jail Sentence Held Up By Gary Judge

GARY, IND., Sept. 26.—The 30-day jail sentence imposed upon Mrs. Ethel Hall has been held up by court order temporarily to give the 24-year-old mother a chance to wean her baby.

Mrs. Hall was convicted under the Indiana nuisance law because there had been drinking at her home. When she was sentenced to jail her attorney appealed to the court on the ground that the eight-month-old Beverly Hall was still a nursing infant and could not leave her mother.

Judge Martin J. Smith agreed to postpone the sentence until the baby could be weaned.

### Hunger Strike In Effect In Mexico

MEXICO CITY, Sept. 26.—Two hunger strikes were in progress today in the federal district government building.

Employees of the Zahler Candy factory gathered there to protest, by not eating the government's action in selling the factory for back taxes before they could secure a court order for its sale to provide them indemnification for losing their jobs when it closed.

The city's street cleaners also refused to eat and gathered about the building's corridors, demanding that certain discharged white wings be re-instated.

### Bridge Collapses

CELINA, Sept. 26.—Donald Whitmore was seriously injured yesterday and Ira Rogers and Carl Lillich slightly injured when a span of the St. Mary's bridge near here, fell, plunging two trucks, one of which Whitmore was driving, into St. Mary's river. Rogers and Lillich were being towed in the other truck. The bridge was recently inspected and declared safe.

### University Grows

ATHENS, Sept. 26.—Enrollment for classes at Ohio University yesterday passed 2,500 a new mark. More than 1,200 of those attending are freshmen.

## CLARA'S BOSSES PRESENT ADVICE

(Continued from Page 1)

Calvea with other members of his company at least some of the time when Miss Bow was wooing Dame Fortune over the gaming tables.

"Say, if I had lost \$12,900," Rogers said, "they would have had to pour all the water in Lake Tahoe over me to bring me to. I wouldn't even have been able to write a check."

"I was only with Clara and her boy friend, Rex Bell for a short time. She certainly wasn't reckless when I saw her. When I lose 50 or 60 dollars in a gambling house I back out and tell the house that is my contribution for absorbing the light and heat."

Rogers became rather querulous when he said he "got in a sort of a jam" over the affair.

"My wife and family gave me the horse laugh," he said, "and accused me of going to the bow-wows all of a sudden."

Informed that the owners of Calvea were reported to be contemplating reproducing Miss Bow's checks on postcards and selling them for 10 cents her attorney, W. I. Gilbert, said if they did so he would advise Clara "to pay postage on every one that is sent out."

### Dressed Up Trains Plans For Future

CHICAGO, Sept. 26.—Exit the drab and uniform severity of railroad trains; enter cars which have been "dressed up" by skilled painters, interior decorators, designers and artists.

Marceau Thierry, chairman of the Equipment Painters division of the American Railway Association, recently told of the new trend at the division's convention here. He said:

"The public demands a more beautiful and restful atmosphere while traveling. The novelty of train riding has worn off. It is necessary now to give the passenger an impression of remaining at home while riding."

"Formerly any man with a steady hand and a bucket of paint could finish a coach. Today only a skilled artist can do the job."

### Killed In Beer Flat

TOLEDO, Sept. 26.—Adolph Krueger, 62, was killed in a beer flat here last night, 36 hours after police were said to have closed such places in the city. He was believed to have been slain for a large sum of money, which he is reported to have carried on his person.

## CONFIDENCE IN MART LACKING

Mullins Quoted at 10 On  
New York Exchange;  
Rally At Noon

(By Brush-Moore Leased Wire)  
During the early trading today on the New York stock exchange the active industrial list generally showed much weakness, in which new low records for the year were made in almost all of the oil groups, a number of the steels, motors, and specialties.

During the first half-hour's trading the average industrials made a drop of \$2.50 below yesterday's closing prices.

During the second hour's operations the industrial list staged a rally, in which the comeback of several of the leaders amounted to \$2.00 per share. United States Steel sold above 160. The rally was holding fairly well at noon, but the volume is light and little confidence is held among the traders of the ability of the market to hold its rally.

Timken Roller Bearing sold at 61, being up one and one-half points from yesterday's closing price. Mullins Manufacturing sold at 10.

Brokers and market advisers continue bearish as a rule and only moderate rallies from an over-sold condition are expected, although the low levels of a number of the leading stocks look attractive for investment purposes.

On the New York curb Cities Service sold at 20 1/4, and Pennroad at 10. Call Money is renewing at 2 per cent. Volume of sales for the first two hours is estimated at around 800,000 shares. The average industrials at noon show an advance of \$1.20 and the average rails are virtually unchanged from yesterday's closing prices.

## School Board will Aid Town 'Bad Boy'

EDGEWATER, N. J., Sept. 24.—In the hope of making a little gentleman out of this town's 12-year old "bad boy," the board of education has voted \$50 worth of gland treatment for him.

The action was taken after Dr. Charles F. Buckley, school physician, testified he was certain proper treatment of the pituitary gland would cure the child of his "foul wickedness."

The directors were told that since the start of school he has been terrorizing other pupils and his teacher with his pranks. The boy's parents live on a houseboat and are too poor to provide the medical treatment prescribed.

## Greenwich, Time Factory for World, Celebrates Its 250th Anniversary

English Observatory, Chosen by Scientists in 1884 as Longitude 0 on Mythical Line, Takes Its Work Seriously

TRANSIT CIRCLE

THE GREENWICH MERIDIAN

GALVANO-MAGNETIC CLOCK

LONDON, ENG., Sept. 25.—Telling the time to the world. That is the job of the famous observatory at Greenwich, Eng., where "Greenwich time" has become a household word. And Greenwich takes its duties very seriously since to scientists it is the prime meridian, thereby being better known as Longitude 0.

Modern miracles of science are casually accepted today, but there is still a tremendous amount of curiosity about the difference in time in various parts of the world. There is a very definite reason why the local time of New York city is four hours and fifty-six minutes slower than what is known as Greenwich Mean Time. And Mean Time is reckoned by the mean sun which is arrived at on a basis of a perfect equality in the duration of days.

That mysterious imaginary line which extends over the earth's surface between the North and South Poles has ever been a symbol of fascination to people who want to know how it has been arrived at and who wonder just where the earth's surface begins and ends. This was decided at the International Meridian Congress in 1884 when scientists from all over the world decided that the

meridian of Greenwich should be taken as the prime meridian, and that place therefore became Longitude 0. Using this line as a starting point 24 standard meridians differing from it by 15 degrees of longitude east and west were marked off on the globe and Longitude 0 or Greenwich became the time factory for the world.

A glance at the map will reveal that New York city is 74 degrees west and on the basis of 15 degrees to an hour, the metropolis of the western hemisphere is almost five hours slower than Greenwich.

Recently the Royal observatory at Greenwich commemorated the completion of 250 years of service with the old observatory, built in 1675, still in use. This is now known as Flamsteed House, named in honor of the man who was appointed the First Astronomer Royal eight years later, and it today is the main building of the observatory.

Visitors from all parts of the globe make their way to the observatory when in England. Their curiosity to see how time is computed and the wonderful instruments used for that purpose is shared by King George of England, who recently expressed a desire to make a thorough and comprehen-

sive tour of the institution. He was particularly interested in the transit circle which consists of a telescope facing due south and exactly aligned with the imaginary line of Longitude 0.

This mythical line has a material symbol in the form of a fragment of spider webbing an inch in length. By the passing of the stars across this well high invisible thread in Greenwich mean time computed. Visitors to the observatory are always anxious to gaze through the telescope in order to be in the novel position of being half in the eastern and half in the western hemisphere.

Another interesting exhibit is the galvano-magnetic clock which is placed at the gate of the observatory and records the time of day in Longitude 0. All 24 hours are designated. And all visitors find their way to the tablet which marks the exact habitat of Longitude 0. The wonderful instruments used by the astronomers are kept under the strictest guard not only to prevent handling but to insure the instruments being kept in an even, unvarying temperature. The sidereal clock never varies more than the fiftieth part of a second in recording the exact time of day that sets the pace for the world.

## 60 Occupations In New York Society

NEW YORK, Sept. 26.—Sixty-odd occupations and professions are represented by the residents of The Pan-Hellenic, a club-hotel for women, a survey which was completed recently reveals.

With an aeronautical engineer, an architect, a manufacturer of rubber articles and an essayist on the list, the professions are not limited to the usual secretaries and nurses.

The Pan-Hellenic originally was designed for the use of members of the Greek letter societies. However, it now also houses non-society, and, in fact, non-college women as well. This greater inclusiveness is accredited with having attracted to it a cultured, enviable group of widely varied occupations. Many of the unusual occupations are engaged in by non-college women.

### Large Peaches

### Weddings Quieted

NEWBURGH, N. Y.—No longer may wedding processions be heralded by tooting horns and rattling tin cans in this city on Sundays. Following complaints against such disturbance of the Sabbath, City Manager McKay has instructed police to curb the practice.

### Child Near Death

PORTSMOUTH, Sept. 23.—The life of Darlene Crabtree, 11, daughter of Mrs. Mae Crabtree, was saved yesterday when artificial respiration was administered after the child had been rescued from the Scioto river by Robert Vulamore.

### Plague Growing

PARIS, Sept. 26.—An Algerian dispatch to Matin, Paris newspaper, today said Bubonic plague had been reported at Oran and that the port had been closed. The news was brought by steamers which usually coal there.

### Accidentally Shot

ASHTABULA, Sept. 26.—Accidentally shot in the back while camping at Cold Springs, near Ashtabula, Frank Novak, Cleveland, is in critical condition here.

## HOME-MAKING HELPS

By Wanda Barton

### Where Does Decorating Begin

"I've been window shopping two weeks and I'm still at sea," said Marian. "Shall we furnish our apartment with modernistic things or with reproductions of Colonial pieces or English or French period furniture?"

Half a dozen bright ideas fell in a moment. For it transpired that she had three elaborate pieces as wedding presents, plus two equally ponderous heirlooms, and any decorative scheme had to provide for them.

"Then why not start with that and build around it? That's the way we planned," suggested Thelma. "You choose some fine piece that you really like enormously—the sort of thing you know you'd never tire of—and suit the rest of the furniture to that good beginning. Like that old story of the woman who had to build a new house and fill it with new furniture because she unexpectedly inherited an Oriental rug."

Everybody had such tales. One built her living room around a fine Colonial mantel that went with the house. Another, having fallen in love with a beautiful refectory table of black walnut, used that as a basis for adopting a Spanish decorative scheme—chaste lines, wrought iron, red velvet—things which seemed to suit her personality once she found herself in these surroundings. The vivid hues in a Florentine jug she had picked up abroad were sufficient to start one woman on a successful decorative plan—she faithfully copied its colors in deciding on walls, hangings, furniture.

Some have definite decorative ideas—know exactly what period and what colors they must have in any living quarters. But where there is any uncertainty some fine piece as a jumping-off place is a great help. And some remarkably fine results in decoration are often achieved with an origin of a beautiful trifle—a bit of tapestry, a glowing vase, a charming old heirloom.

### Secret of Good Coffee

"First make sure that the utensil used is absolutely immaculate." So goes the first rule for making good tea or coffee. Both of these beverages have a tendency to leave slight odors and stains. And the ordinary rapid cooking utensils may not be enough. With the result that there is likely to be a faint, stale flavor in freshly made coffee, and nobody can understand why.

After such use the tea urn or the coffee percolator, or whatever utensil is used for the purpose, should be given a thorough scouring inside with some fine cleanser. No tan or yellowish stains should be allowed to remain. After the cleansing a scalding with hot water and a rinsing with cold is advisable. Leaving the top open when not in use also helps to air it.

### Occasionally a special bath will do it good.

Place one tablespoonful of bicarbonate of soda in the tea or coffee pot, add water almost to the top and boil for 10 minutes, then rinse with hot water and several cold water baths. Borax may be used in place of bicarbonate of soda. Salt—about half a cupful to a quart of water—is also a drastic cleanser.

Earthenware, china or glass of fireproof material are all preferable to metal for coffee and tea making. Both these beverages absorb alien odors easily and sometimes one can detect a faint metallic flavor in coffee or tea brewed in metal utensils.

In addition these containers are easier to keep clean—they show stains readily thus forcing on the housekeeper's attention the need for cleansing.

## Roman Water Main Found In Cologne

COLOGNE—A section of a Roman water main, some seven tons in weight, laid bare near Cologne, is on exhibition in the garden of the Wallraf-Richartz Museum. Its form indicates that it was originally laid in the first century and enlarged a century or two later.

## Gentleman Burglar Wed in Cell

Francis Roche, so-called "gentleman burglar," trying to hide his handcuffs with his hat as he is being wed to Mlle. Anik Le Moal, a beautiful Breton girl, at Paris, France. The mayor performed the ceremony after which the two witnesses (who were detectives) led him back to his cell. This slight, dapper youth is being tried for several burglaries. ## Rockefeller Homes in Ohio

This attractive brick and frame house is one of the homes built in Forest Hills, the new Rockefeller housing center, located between East Cleveland and Cleveland Heights, Cleveland, Ohio, and said to be one of the largest of its kind in the Middle West. They are designed to supply the younger executive and professional classes with moderately priced homes in a desirable district.

## O, Min! Sidney's Gone

UNCLE BIM reached deep into his left pocket and got Sidney Smith, the cartoonist, a ticket for the royal suite aboard the Ile de France. Smith is leaving the Gumps behind while he romps around Europe. Will Uncle Bim wed? He knows.

## New Style Adopts Century-Old Grace

"The 1830," one of the gowns that attracted considerable attention at the Fall fashion show at the Atlantic Beach Club, Long Island. All the grace of the styles of a century ago is embodied in this black velvet evening gown. A diamond pendant is worn on back. Drapery, exceptionally good this Autumn after several seasons of absence, is the interesting feature of this stunning formal creation. An intricately tucked girdle laps in front and suddenly cascades to the floor in a graceful drape, while another falls from the right shoulder at the back.

of Herman D. Myers of Canton, and had been under lease to Harry Robb who operated it as a hotel. Myers placed his loss at \$20,000 which is partially covered by insurance.

Destruction of the famous old landmark recalled to residents of Carroll county some of the early history of the building.

It was built in 1862 by Alfred Lee who opened it as an academy which he gave the name of the village near where it stood. It was one of the few schools in this section of the state at the time.

Had Other Fire

Within a short time Lee was called to Ohio to assume charge of Scio academy. Harlem Springs academy was then taken over by the Methodist church and Robert Howe was placed in charge. He remained there until 1873 when the original building was razed by fire.

A year or so later the Presbyterian church rebuilt on the site and placed Professor Dan Butterfield in charge. He was succeeded in 1878 by Rev. S. L. Dickey who in turn was succeeded in 1889 by Professor John R. Steen and Mary Clark, who bought the academy and built addition to it.

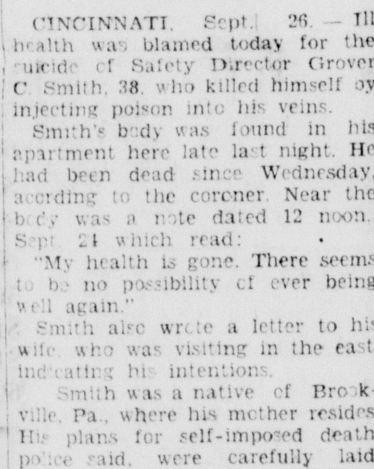

In 1896 the academy was taken over by Professor J. L. Tope and Elmer Harsh who continued it as an educational institution for two years. At the close of the two years it was abandoned as an academy and sold to W. R. Johnson.

Myers, the last owner, bought it in 1924. It was converted into a 32-room hotel and subsequently leased to Robb.

Among the prominent men who graduated from the academy are Rev. Sheridan B. Salmon, presiding elder of the Cleveland district of the Methodist church, and T. J. Saltzman, president of the Cummings Trust Co. at Carrollton.

## CINCINNATI MAN ENDS OWN LIFE

Poison Injected in Veins Brings Instant Death, Coroner Says

CINCINNATI, Sept. 26.—Ill health was blamed today for the suicide of Safety Director Grover C. Smith, 38, who killed himself by injecting poison into his veins.

Smith's body was found in his apartment here late last night. He had been dead since Wednesday, according to the coroner. Near the body was a note dated 12 noon, Sept. 24 which read:

"My health is gone. There seems to be no possibility of ever being well again."

Smith also wrote a letter to his wife, who was visiting in the east, indicating his intentions.

Smith was a native of Brookville, Pa., where his mother resides. His plans for self-imposed death, police said, were carefully laid. After writing the notes he filled a hypodermic with poison, lay down and injected the deadly poison into his veins.

Physicians said death was almost instantaneous.

In addition to his duties as

Safety director, Smith was executive assistant to the city manager.

ST. ANDREWS—It looks as if the Duke of York would be an unperturbed competitor in a golf tournament attended by big galleries. He had taken his stance on the first tee when a nurse and baby carriage passed along a road dead ahead. He waited and tried again. Then came the town dustman and his cart. The duke waited once more then cracked out a 200-yard shot toward Swilcan Burn.

## Ohio Girl's Lucky Day

THREE candles! And each one represents a year of joyous living. Betty Jane Glenn, of 7031 Zoeter Ave., Cleveland, is a typical Fig Syrup baby. Here is what her mother says:

"My druggist told me about California Fig Syrup, and when Betty Jane became constipated we got some for her. It relieved her constipation immediately, sweetened her breath, made her bright and happy again."

"I have also used Fig Syrup for her colds and upsets. It has kept her strong and vigorous."

For fifty years, wise mothers have been secure in the knowledge that a child's headachy, bilious, feverish or fretful spells can be quickly and safely overcome by California Fig Syrup. Physicians recommend its soothing aid to keep the bowels clear in colds, or children's ailments; or whenever bad breath, coated tongue, or listlessness warn of constipation.

California Fig Syrup helps tone and strengthen weak bowels—assists in building-up and energizing weak children. The genuine always bears the name California. All drugstores.

Book Listing Activities Of  
Chicago Police Is

(By Associated Press)

CHICAGO, Sept. 26.—Two brothers of the notorious Jack Gusik—known as the Capone gang's "colleagues"—were tossed into jail by federal agents today.

When the detectives seized the two Gusiks—Harry and Sam—in a South Wabash avenue restaurant, Harry Gusik asked:

"What do you want us for?"

"Income tax," one of the agents replied.

"Oh," said Harry, showing signs of relief. "I thought you were 'vaging' us."

"Vaging," police explained, is the newest word in the Argot of the underworld. It was born of the recently inaugurated police campaign which seeks to drive well known crooks from town under threat of arrest as "vagrants." Severe jail sentences may be imposed under the revived vagrancy law under which gangster prosecutions are to be made.

The Gusik arrests were the second stroke against gangsters within 24 hours, both being by federal men. Yesterday the government agents led a raid on the Caribee hotel on South Wabash avenue, making one significant discovery. That was the finding, in the room occupied by Tony Tagenti, a Capone bondsman of a secret police department memorandum.

## Life Span Of Americans Has Increased Due To Research

WASHINGTON, Sept. 26.—To every child born in 1930 medical science, in the old fairy tale role of god father, says: "you may logically expect to have 10 years more of living than the 1910 baby."

Expectations of life at birth has been increased from 48 to 58 years in the last two decades. Older age groups also have an extended life span. Such is today's good news from the United States public health service.

The long campaign against infant mortality, and to increased public health activities throughout the land, the public health service attributed the cheering results of the latest life table figures.

Life insurance and census bureau figures are the basis for the computations. Specific death rates are computed for each age from one year to 100 and beyond in arriving at what any baby may logically expect in the way of living.

The public health service pronounced these the principal

pal disease-control triumphs of the 20 years, chief factors in the longer life span.

No child need now die of small pox or diphtheria, among the most deadly scourges of the past. Babies may safely be vaccinated for small pox and be given anti-toxin for diphtheria.

Scarlet fever has become so mild health authorities seldom recommend wholesale immunization, but it is possible to immunize.

If one child in a family has contracted measles, it is now often possible to protect the remaining children by administration of immune serum.

Typhoid fever is well guarded against in most American cities by sanitary control of water and milk supplies, and typhoid vaccination is excellent protection.

Children bitten by mad dogs can be saved by the Pasteur treatment.

Yellow fever and bubonic plague may be readily controlled in progressive communities by measures against the mosquito and rat respectively.

## Inventors Announce Rocket Plane Flight

Announcement of plans has been made by Maurice Poirier, inventor-designer, of Burbank, Cal., who is working with Franklin L. Wallace, pioneer aviator, in constructing two rocket planes at Los Angeles. They intend to launch the model, built to withstand speeds up to 650 miles per hour, on the West Coast. It will be powered with 38 steel-cylinder rockets—10 driving and 28 stabilizing or balancing rockets—which will develop 21 horsepower.

Extreme eagerness to return an obligation is a kind of ingratitude. —La Rochefoucauld.

POLICE ARREST

THREE YOUTHS

Believe Robbery Series In Three States Now Cleared

(By Associated Press)

WARREN, Sept. 26.—A roundup of four youths was believed by Warren police today to have solved more than 50 robberies and burglaries in northeastern Ohio, Pennsylvania and West Virginia during the last 18 months.

The fourth alleged member of the gang, William Rothus, 18, of Girard, was arrested here yesterday. James Garry and Eldredge Wager of Warren, were apprehended at Ambridge, Pa. Wednesday and Lester Porter of Niles is being held at Ravenna.

The two Warren youths admitted a number of robberies and directed officers to much of the loot. Police Sergeant John Nunlein said. The robberies took place at Ravenna, Niles, Youngstown, Girard, Fowler, and Mecca, Ohio; Meadville, Sharon and Ferrell, Pa.; and Austintown, W. Va., according to Nunlein.

Largest Granite Block Discovered

CONCORD, N. H., Sept. 26.—Weighing 75 tons in its rough state and 50 tons when cut, the largest block of stone in the history of the granite industry here is being taken from the quarries of a local company. The block will be used in a new office building in Pittsburgh, Pa.

Thirty extra stone cutters were engaged for the work of quarrying and preparing the huge stone. Twenty more will be needed.

When ready for shipment, the granite block will be 31 feet, 6 inches long, 8 feet, nine inches wide. In order to bring the block to the stonehills a section of Rattlesnake hill will be removed. There is no rail line from the quarries to the sheds and motor trucks probably will be used.

Up to now, the biggest block quarried in Concord weighed 35 tons.

Prohibition To Be Issue, Says Smoot

SALT LAKE CITY, Sept. 26.—Senator Reed Smoot, recently returned from a honeymoon in Hawaii, says prohibition will be the vital issue in the next presidential election. Smoot pointed to Gov. D. Roosevelt's stand against prohibition as evidence of the New York governor's willingness to stake his chances of the presidential nomination on the issue of prohibition.

Today's Pattern

1980

The lines of this model and the fabric of which it is made express the very last word in fall fashions. The notched collar, the belted waist line and the cleverly attached skirt, give a decided tailored effect that is extremely smart. Small buttons add a chic touch.

Pattern 1980, is delightful made one of the new tweed-patterned silks in flat or canton crepe. They give the appearance of wool, yet retain the grace and charm of the silk. Later, with a cloth top coat, this model will form a stunning ensemble. Mixtures of brown, tan and orange; black, green and white; blue, grey and rose are very smart.

May be obtained only in size 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 14 requires 3 1/2 yards of 39-inch material.

"Mammy"

The old traveling minstrel shows, immortalized in Al Jolson's latest Warner Brothers Technicolor picture, "Mammy," which plays at the State theater, offer the most colorful background imaginable for a lively dramatic story.

"Mammy" deals with a minstrel troupe, the "Meadows Merry Minstrels." It gives Jolson a setting that is proving his happiest medium in pictures. "Mammy" is the modern version of an interesting time in the nation's amusement history.

Hair that sparkles!

No one can deny the importance of having the hair arranged in the style best suited to the individual type. Much of the effect is lost, however, unless the hair is kept soft, abundant, lustrous.

A million busy women and girls know the easiest way to keep the hair in perfect condition is with Danderine. The first application will show you how marvelously it removes excess oil from the hair; cleanses it; makes it sparkle with new life and lustre. It's so simple to use Danderine. All you do is put a little on your brush each time you arrange your hair! The consistent use of Danderine will dissolve the worst crust of dandruff; soothe the scalp; stimulate the growth of long, silky abundant hair.

Danderine isn't sticky or oily; doesn't show. It makes the hair easy to manage; holds it in place for hours. "Set" your waves with it and see how much longer they stay in.

# Victory Expected For Salem High Against Akron West Here

## THE DAY In Sports

SALEM SEEKS VICTORY HAVE STRONGER TEAM

When Salem High and West High clash at Reilly stadium Saturday afternoon it will be the sixth meeting of the two teams since the season of 1914 when they opposed one another for the first time. To-date, in those five games played already, Salem has been victorious three times to two decisions won by West. The scores of the games played follow:

| Year | Salem | West |
|------|-------|------|
| 1929 | 19    | 12   |
| 1926 | 9     | 6    |
| 1925 | 12    | 7    |
| 1924 | 0     | 34   |
| 1914 | 3     | 21   |

In the five games Salem is outscored, 80 to 43 points, West rolling up 55 of its points in the first game played. The Stonemen expect to make it four straight from the Akronites with a victory Saturday and also anticipate gaining on the opposition in total points scored.

Perhaps Stone will use the same lineup to start Saturday's game as that which opposed Canton McKinley for the major part of last week's game. Then too, changes may be made, but it is assured that the team that does represent the Red and Black will be much stronger than that which played at Canton, whether it be the same combination on a different team.

As the famous Coach Roper used to say, "You don't learn a thing from victory; it is a defeat that brings to a team and a coach knowledge of the team's weaknesses."

Fans saving old-time football scores will find plenty of interesting data in the following, those for the seasons of 1911 to 1915:

## Stonemen May Display Added Power In First Home Game Of Season

An ambitious Salem High team of football players, one which is determined to win its first victory of the season, a victory which they hope will mark the start of another successful gridiron campaign and which will offset the humiliation of defeat sustained last week, will clash with its second opponent of the current grid schedule, Akron West High, in the opening home game of the 1930 season for the Red and black at Reilly stadium Saturday afternoon.

So intent is Coach Floyd Stone on bringing home his first victory, that it is highly probable that an entirely different aggregation than that which started last Saturday's game, the season's opener at Canton McKinley, will represent the Red and Black. Strenuous grid sessions have been held all week in an effort to determine the best combination available from the 44 players on Salem's roster and not a single griddler who was in the starting lineup in the 26-9 setback at Canton is assured of a starting berth.

Stone has indicated there will be changes in lineups and his charges and has made frequent alterations in the lineup but he is as yet not at all certain what eleven players will compose the starting combination. Twenty players are expected to get into the fray regardless of whether they start or not.

**West Reported Strong**  
Akron West has indicated its potential strength in holding Coshocton High to a 9-0 score last week but a victory for the Red and Black is anticipated. At least so fans predict and for several logical reasons:

Outstanding of the points upon which fandom bases its contention that Salem will trim West is that which explains that the Red and Black is not an over-rated aggregation and that simply bad breaks, nothing else, were responsible for the defeat at Canton. Others explain that the team obtained much knowledge from the setback—at least such knowledge was readily available for weaknesses which can be strengthened were glaring apparent—and claim that Stone will have remedied such delinquencies by Saturday.

The allegation is also made that that strongest combination was not competing against McKinley and that if changes are made in the starting crew the Red and Black will have added power.

But regardless of the reasonings of fickle fandom, Stone is making every effort to increase the power of his team and although the defeat was humiliating to extremes, it was no great indication that the Stonemen are among the weakest teams in the district. If there is such a thing as the better team losing—and the majority say there is not—Salem was the better team at Canton and so all contention is now turned to this battle in which Stone's proteges make their debut in their home ballpark and before a home crowd.

**Changes Numerous**  
Changes effected by Stone in this week's workouts were entirely too numerous to list individually. Mainly they involved switching Paul Sartick into the backfield and Billy Corso at first team center; Gene Yarwood and Jack Carpenter to the first team backfield to replace the late team captain.

## Finds Pearl

**SCHEENSTADT**, N. Y., Sept. 26.—Dr. Frank Parker Day, president of Union college, found a pearl in his first order of oysters on the half shell this season at a local restaurant.

## Cross Country Race Run Here Saturday

An inter-class cross country race will be run as an added attraction between halves of the Salem-Akron West football game at Reilly stadium Saturday afternoon, W. J. Springer, principal, announced here today.

The race will involve about 20 high students who are training for the cross country team. They are being coached by R. B. Clark, director of physical education in gradeschools.

Cross country has become a regular sport in Salem High. A team will be sent this year to the state meet at Columbus.

## ROGERS HORNSBY NEW CUB LEADER

**CHICAGO**, Sept. 26.—All the excitement over the change in Cub managers was over today and the waning National league champions went forth after another revenue victory over Cincinnati, and if possible, to do something to keep the pennant race alive.

Whether the race would come to a halt depended more upon the Pittsburgh Pirates than on the Cubs. Should the St. Louis Cardinals win from the Pirates today, a victory for the Cubs would mean nothing in particular for the Cards would be "in."

Hornsby did not appear on the field during yesterday's game, sending Coach Ray Schalk out to coach at third base. He did go out to be photographed with owner Wrigley before the game, and the 15,000 fans who attended, provided jeers and cheers in about equal volume. The cheering grew much more faint as the Cubs progressed to a 4 to 3 victory.

The Cubs got a start against Cincinnati, but the Reds proved troublesome. Hornsby, who became active manager just before the game, sent young Bud Teichert to the mound, and the youthful southpaw did well for eight frames. Home runs by English and Hartnett in the first two innings started the Cubs off ahead and a few more timely blows gave Chicago a 4-1 lead going into the ninth. But then Tony Cucinello drove his second home run of the day over the left field wall. Harry Heilmann duplicated the wal-

## HEADLINES From the Sidelines

By DAVIS J. WALSH

**(By International News Service)**  
**SOUTH ARDMORE**, Penn., Sept. 26.—Eight years ago this month Jess Sweetser, then a white-headed, slim waisted Yale student, met one Robert Tyre Jones in the semi-final round of the National amateur golf tournament.

Mr. Jones was a squat little fellow then with his light brown hair parted in the middle and his rather pudgy middle girdled by a belt that seemed chronically too tight for him. Also he had a very elegant golf swing.

The result of this meeting was an 8 to 7 whaling for Mr. Jones. At the end of the first eighteen holes Mr. Jones was six down and even though he finished the final nine holes of the match in 33, he was unable to gain a hole. In fact, he succeeded in losing two more in spite of that rally.

Now they are meeting again here at Merion and in a semi-final round. Sweetser, much older and heavier, married and the father of two children with a British amateur championship as well as an American one and a serious physical breakdown to his credit, isn't the golfer he was then, but he's still the hard bitten, relentless fighter and a thoroughly capable linksman in addition.

Sweetser was the favorite back at Brookline, although he didn't figure to thump the then erratic and temperamental Mr. Jones so soundly. He had played another and more consistent golf than the Atlanta sensation for a couple of years and was being looked upon at the time as Jones is now, just a little too good for the rest of the boys.

The situation is reversed today and with interest.

## Heavyweight Battle Will Be In Garden

**NEW YORK**, Sept. 26.—Threat of rain caused postponement of the 16-round heavyweight tilt between Jack Sharkey and Victorio Campolo last night. Directors of Madison Square Garden decided to hold it in the Garden itself next Friday night.

The Garden failed to reveal its reasons for transferring the bout from the stadium, where 75,000 spectators can be accommodated, to the Garden with its maximum capacity of barely over 20,000 but two factors were believed to have led to the surprising decision. First, it was believed the Garden did not care to risk further postponements because of weather conditions; and secondly the bout had aroused so little public interest that it was believed it might more profitably be conducted in the Garden itself.

## One Game Stands Between Cards And National Title

**(By Associated Press)**  
Only one game now stands between the St. Louis Cardinals and their third national league pennant in five seasons. They got back into action at home yesterday and beat Pittsburgh 9 to 0.

Chicago, managed by Rogers Hornsby, defeated Cincinnati 4 to 3. One more St. Louis victory or one defeat for the Cubs will settle the struggle. If Chicago wins its remaining games against the Reds and the Cards lose three to Pittsburgh, the season will end in a tie with a three-game playoff to decide the pennant winner.

As the veteran spitballer Burleigh Grimes held the Pirates to seven hits, the St. Louis batters collected a dozen effective blows.

The Cubs got a start against Cincinnati, but the Reds proved troublesome. Hornsby, who became active manager just before the game, sent young Bud Teichert to the mound, and the youthful southpaw did well for eight frames. Home runs by English and Hartnett in the first two innings started the Cubs off ahead and a few more timely blows gave Chicago a 4-1 lead going into the ninth. But then Tony Cucinello drove his second home run of the day over the left field wall. Harry Heilmann duplicated the wal-

## Little Series Game Delayed By Shower

**ROCHESTER**, N. Y., Sept. 26.—Weather permitting, the Louisville Colonels and Rochester Redwings clash in the second game of the little world's series today.

Rain forced postponement of the second game yesterday. Trailing the American Association champions as a result of the 7-3 beating they absorbed in the first game, the Redwings enter the second game, handicapped by the absence from the lineup of George Anderson, shortstop.

## County Grid Activities Columbiana Meets Lisbon

The 1930 edition of the Columbiana High school football team will take the field Saturday afternoon in its coming game against Lisbon High gridders.

The success of the team will depend largely on the ability of the new and inexperienced men in the lineup Jim Barrow and Fred Detwiler are the only men of experience on the line while Phil Detwiler is a candidate for a line position, having been transferred from the backfield. Around these three as a nucleus, Coach Atkins, former Fairmount (W. Va.) State College star, has been building a rather light but fast line.

West, a freshman, and Maurer, a sophomore, are newcomers on the line. Hum, the giant guard is fighting for a regular berth, although handicapped with a little extra avoirdupois. Crouse, with a little experience is liable to oust any of the guards or tackles. The team will be handicapped in the backfield with Brungard, Mather and Metz all nursing early season injuries. It is not known at this time just who will compose the backs, but Zellers and Schnauffer are practically certain to start.

Any of the following are liable to be in the starting backfield: Detwiler, Hobart, Stahl or Lehman. If Lehman is called upon he will undoubtedly be the lightest quarterback ever to appear on the county gridders. Magill, Hooper, Todd and Kyser are all trying hard to make the grade, some of them getting a late start in practice.

A large crowd is expected to cheer the team "street fair day" on Esterly field, the game beginning at 2:30.

## New Root Planned To Reduce Costs

GERRISH, N. H., Sept. 26.—Development of a root pruned seedling is being undertaken by the state Forestry Department and is expected to greatly reduce the cost of replanting New Hampshire's waste and unproductive areas.

According to estimates, the development of this tree can be produced for about \$2.50 less per 1,000 than the four-year transplants which have been generally used by the forest planter.

It was pointed out by the department that land owners using this seedling for establishing a crop on unproductive areas will reduce the initial cost of such operations from 20 to 25 per cent.

To date visitors to the state nursery have shown a decided interest in this direction and it is believed that the state will make a liberal use of them in the future.

## COLUMBIANA

An enjoyable meeting of the Columbiana Rotary club was held Monday in the dining room of the Presbyterian church, when members of the teaching staffs of schools here with members of the board of education were guests.

President Isaiah Mowen presided and called upon Supt. C. E. Bender and H. H. Detweiler, president of the board of education, who replied briefly.

## Liverpool Man Speaks

Rotarian Herbert Means, superintendent of the East Liverpool schools, the speaker of the evening, was introduced by H. W. Hammond. Means spoke on "Are Too Many Young People Becoming Educated Today?" He cited many examples to prove the answer to be in the negative.

Dr. Colin Kinsey, president of the East Liverpool Rotary club, was also present, and was called upon for a brief talk. The subject for next week's meeting at the Park hotel was announced to be "Aviation."

The C. C. L. met Monday evening at the home of Mrs. David Wolfgang, Court street, with ten members responding to roll call by giving suggestions for indoor play.

Mrs. H. R. Riddle read a paper on "The Educational Value of Play in the Kindergarten" and Mrs. Richard Orr one on "The Value of Handwork to the Child Under Six Years of Age." Mrs. Jack Yahn, Youngstown, was a guest.

Mrs. G. G. Pinkerton entertained Monday evening at her home east of Columbiana, honoring the birthday anniversary of Mrs. Albert McMaster.

## Guests of Parents

Mrs. Russell Gonzaware and children, Robert and Miriam, Youngstown, were week-end guests of her parents, Mr. and Mrs. Ralph Myers, Middle street. Other Sunday visitors at the Myers home included: Mr. and Mrs. Lloyd Brenner, Youngstown; Mr. and Mrs. Paul Kincaid and granddaughter, Dorothy Nippel, Warren.

The Queen Esther class of Grace Reformed Sunday school will hold the first fall business and social meeting Tuesday evening at the home of Mr. and Mrs. Fred Keller, County Line road.

Mr. and Mrs. Charles Smith, Sebring; Lyman Augustine, Salem; and Mr. and Mrs. C. S. Lincoln, East Palestine, were recent guests at the home of W. L. Augustine and sisters, North Main street.

The Women's Missionary society and Girls' Mission guild of Grace Reformed church held a joint meeting Tuesday. A brief business session was followed by programs by both organizations. The feature of the program was a playlet, "Missionary Magazine" given by Susie Detweiler, Mildred Phillips and Vivian Renner. The Missionary society playlet, "What I Can Remember," was presented by Mrs. T. J. Tidd, Mrs. W. T. Holloway, Miss Lydia Weaver, Mrs. Arthur Myers and Mrs. E. P. Funkhouser.

## Pastor To Return

Rev. C. R. McMeeken, pastor of the local Methodist church for the past year, has been returned to his church here by the district conference, just adjourned at Mt. Vernon.

Mrs. R. J. Barrow presented a group of her piano pupils in an interesting recital Wednesday evening in the Presbyterian church. Mrs. R. E. Mather and Leroy Lau

are the delegates of the local Pythian sisters and K. of P. lodge at the state convention in Springfield this week.

Miss Doris Orr, teacher in the Cleveland schools, and Mr. and Mrs. Howard Orr and family, Youngstown, were Sunday guests of their parents, Mr. and Mrs. Cassius Orr, North Main street.

## IN CASE AFTER CASE OWA-TON-NA PROVES ITS MERITS

"This Fine Old Indian Remedy Has Been a Wonderful Help in Our Family," Says Mr. Myers

The praise which Mr. Fred W. Myers, 1216 Sycamore Ave., S. E., Canton, Ohio gives Owa-Ton-Na is not unusual in its history since thousands of endorsements have been received in mild as well as obstinate disorders. Mr. Myers says: "For several years, I suffered with serious disorders which seemed to keep me in a run-down condition. Stomach, liver and kidneys all seemed to be afflicted. I was troubled with constipation and rheumatic pains in my hip and shoulders caused me a great deal of suffering."

"I started to take Owa-Ton-Na to build up my system and it certainly has done the work. Why, I feel like a different man altogether. In a short time, my bowels began to act regularly, headaches and dizzy spells disappeared. My kidneys acted better than they have for a long time. Bladder irritation disappeared. Now I can sit down to the table and enjoy a good meal; I have a wonderful appetite and food doesn't disagree with me. Those terrible pains in my hip and shoulders are gone. I go to bed at night and sleep fine, getting up in the morning feeling refreshed. My wife and entire family are taking Owa-Ton-Na and are having wonderful results. It certainly has been a big help in our family and we gladly recommend it to other sufferers."

MR. FRED W. MYERS

Why suffer from these conditions which cause so much misery? Owa-Ton-Na has proved its merits in thousands of cases of kidney, liver, stomach and bowel disorders, rheumatism, neuritis, nervousness and a general run-down condition of health. Sold in Salem at the J. H. Lease Co. three stores—Adv.

# "High Hat" On Decline Vet Salesman States

(By United Press)  
PHILADELPHIA, Sept. 26.—The "high hat," once the proud possession of every well-dressed man, is slowly disappearing, the victim of the march of time and the automobile, according to James Rodgers, a veteran salesman in one of the leading hat shops here.

Rodgers, reminiscing on the "gay nineties" and the early days of the twentieth century, gives the automobile as the chief cause for the disappearance of the "silk topper." He says that in those days a man would come into the store and purchase a silk hat for himself and one for his coachman but the chauffeur now wears a cap and the man finds a soft felt hat more serviceable for fast driving in the automobile.

A slight revival in the use of the silk hat was noticed by Rodgers during last winter and he says that this year the demand is even greater. Flowing dresses, which have become so popular with the women, are given as the reason for the increase in demand, the latter stating that he believes the men are trying to "dress up" to the ladies.

The number of men making the hats also has decreased from 100 workers in the city fifty years ago until now there are only about a dozen men doing this sort of work here. Silk hats, at one time made in a number of cities, now are manufactured in New York and Philadelphia alone, those two cities supplying the entire country.

Rodgers does not think, however, even with the increase in popularity of the "topper" for evening wear, that they will ever regain their former place in the wardrobe of the man-about-town. Many of the former purchasers have disappeared. The coachman is now a thing of the past, undertakers dress like normal people, no longer wearing the silk hat, somber suit and long face, the uniform of their position for so many years, and the "dandy" no longer promenades the streets in the afternoon.

## Whose Million?

ALBANY, N. Y., Sept. 26.—Some bank depositors in New York state have overlooked an aggregate balance of \$1,000,000 according to Secretary of State Edward J. Flynn. In announcing the banks of the state have that amount on deposit with no claimants, Secretary Flynn said many clubs, societies and similar organizations often deposit money and then forget about it.

**STOP CONSTIPATION THIS PLEASANT WAY**

ONCE PEOPLE thought pills and drugs were the only way to relieve constipation. But the modern, safer method is to include sufficient roughage in the diet.

Kellogg's ALL-BRAN, a delicious ready-to-eat cereal, gives you this bulk, and overcomes constipation naturally. Read this enthusiastic letter:

"Mine was an extreme case of constipation. I had almost given up hopes of ever being relieved."

"One day I came across your advertisement, so I thought I would try ALL-BRAN. It relieved me almost immediately and I have had no trouble since, which was almost three months ago."

Mrs. E. E. Leslie, 2104 Lyman St., Flint, Michigan.

Delicious when served with milk or cream. Cook into tasty bran muffins, breads, omelets, etc. ALL-BRAN also adds needed iron to the diet. Made by Kellogg in Battle Creek. The original All Bran.

# JUDGE SUSTAINS COMMISSIONERS

## Action To Recover Money Held Without Cause In Court

LISBON, Sept. 26.—Judge W. F. Lones in common pleas court has sustained the demurrer to the petition filed by W. J. Martin, Mel Easterday and John Willard, as trustees of Franklin township against the county commissioners, on the grounds that the petition did not state a cause of action.

Argument on the demurrer was made by Prosecuting Atty. John E. Baucke.

The trustees sought in their petition to have the county return to the township \$13,000, which the county had borrowed from the township following the issuance of \$40,000 that was to be used in the improvement of the Summitville-Salineville road in Franklin township.

### Tell Of Loan

Trustees of Franklin township used \$24,521.74 of the bond issue, and then loaned the county the balance which was to be used in grading this road which extended into Washington township toward Salineville.

This loan as made was determined to have been illegal.

The county then returned the money to the trustees, and the latter issued their check made payable to the county for a like amount, and this was used in grading the northern section of the same road within the limits of Franklin township.

The court held that the petition did not show facts sufficient to bring a cause of action, and the demurrer was sustained.

It was also further held by the court that acts of all officers are presumed to be regular and lawful until the contrary is shown.

The petition simply alleges that the trustees issued a check to the county for \$13,000, and does not state any facts showing this to be unlawful and neither does the petition relate whether the voucher was a gift to the county or that the payment of the \$13,000 was without consideration.

The court also held that because the petition failed to give sufficient facts, it was subject to a general demurrer.

### Wife Asks Alimony

Margaret Dunn of Washingtonville, through her counsel W. E. Warren has filed a petition for alimony in common pleas court against her husband Richard Dunn, residing at the Pascola coal mines on the Salem-Washingtonville road. The couple were married at Hoyt's date, Pa., Aug. 28, 1907 and six children are of issue. Dunn is charged with three years of habitual drunkenness and extreme cruelty, in that he threatened to take the life of the plaintiff last July. The plaintiff is represented by Atty. W. E. Warren.
